Selected Project: **Campus Resource Center Borrowing System**

Class being Tested: **Resources**

Test ID	Expected Output	Actual Output	Pass/Fail	Comments
TC1	Is_available becomes False	Resource successfully borrowed, is_available set to False, confirmation message showed	Pass	Got verified via app test_run.py
TC2	Is_available becomes True	Resource successfully returned, is_available set to True, confirmation message showed	Pass	Got verified via app test_run.py
TC3	Borrow rejected, is_available stays False, message showed	Sorry, 'Projector' is currently unavailable.	Pass	Confirmed in borrowingsystem.py logic
TC4	Resource creation rejected and error showed	Resource ID cannot be empty, so input rejected before object created	Pass	Handled in main.py validation
TC5	Resource creation rejected and error showed	Resource name cannot be empty, so input rejected before object created	Pass	Handled in main.py validation

Class being Tested: **Students**

Test ID	Expected Output	Actual Output	Pass/Fail	Comments
TC1	Student object created successfully	Students registered, confirmation message shown, appears when listing students	Pass	Verified via app
TC2	Resource ID appears in borrowed_resources list	Resource ID added to student's borrowed_resource list after successful borrow	Pass	Verified via app
TC3	Handled well, no crash, list unchanged	remove_borrowed_resource only removes if ID is present in list; no error if absent	Pass	Confirmed by reading student.py logic
TC4	Student creation rejected/error shows	Student name cannot be empty, input rejected before object created	Pass	Handled in main.py validation
TC5	Registration rejected/error shows	A student with id 55 is already registered , duplicate blocked	Pass	Handled in main.py validation

Class being Tested: **Borrowing**

Test ID	Expected Output	Actual Output	Pass/Fail	Comments
TC1	Record created, status "Borrowed"	Borrowing created with correct due date, status changed to "Borrowed"	Pass	Verified via app test_run.py
TC2	Status becomes "Returned"	Return processed successfully status changed to "Returned"	Pass	Verified via app test_run.py
TC3	Handled/rejected on already returned record	No active borrowing record found for this resource and	Pass	Confirmed via test_run.py output (STU002 return

		student		attempt)
TC4	Rejected {Non existent resource}	No resource found with ID 12. Checked before borrowing attempted	Pass	Handled in main.py validation
TC5	Rejected {Non existent student}	No student found with ID 69. Checked before borrowing attempted	Pass	Handled in main.py validation
